Who We Are

Simcoe Geoscience Limited is a Canadian company providing ground geophysical surveys and consulting services to the mining exploration industries.

Since its inception, Simcoe is developing clientele based on our reputation and our goal of providing "Affordable Intelligent Solutions".

Our technical staff and consulting team have a mission, "to work with our clients and their teams in designing and implementing projects focused on achieving their goals in a safe and environmentally friendly manner".

Experience

Our management has a combined "50 plus" years of industry related experience in geophysical surveys and consulting.

Our experience spans geophysical data acquisition, processing and interpretation in all fields including environmental, geotechnical and exploration studies.

Simcoe's team and consulting professionals are able to offer solutions for all geoscience challenges.

Exploration

- ✓ Resistivity & IP Investigations
- ✓ Magnetotelluric Surveys
- ✓ Magnetic – Regional & Local Studies
- ✓ Gravity – Regional & Local Studies
- ✓ TDEM & FDEM Solutions
- ✓ Borehole Logging Technologies
- ✓ Project Integration & Interpretation
- ✓ State of the Art Hardware
- ✓ Deep Exploration Studies
- ✓ Software & Computing Resources

Consulting

- ✓ Experience
- ✓ Client Cooperation & Communication
- ✓ Custom Solutions
- ✓ Project Integration & Interpretation
- ✓ Project Design & Pre-Survey Modelling
- ✓ QA/QC for all Geophysical Programs
- ✓ Software & Computing Resources
- ✓ Compilation & Visualization
- ✓ 2D & 3D Inversion Capabilities
- ✓ Target Delineation

Technologies

- ✓ 2D & 3D Electrical Resistivity & IP
- ✓ Magnetotelluric (MT)
- ✓ Electromagnetic (Surface/Borehole)
- ✓ Gravity
- ✓ Magnetic
- ✓ Borehole Logging

Environmental & Geotechnical

- ✓ Shallow Geophysics
- ✓ Buried Utilities
- ✓ Groundwater Mapping
- ✓ Bedrock Topography Studies
- ✓ Decommissioning Studies
- ✓ Waste Pile Thickness
- ✓ Subsurface Voids
- ✓ Contaminant Plume Delineation
- ✓ Containment Structure Evaluation
- ✓ Abandoned Mine Workings
